

# Juliano Moreira Aleixo

## Front-end Developer

I have been working as a developer for 1 year and have improved my skills as a full-stack developer. My main specialty is front-end and I have knowledge in technologies such as React, Vue.JS, TypeScript, JavaScript (ES6), HTML, CSS, Tailwind and Python.

## EXPERIENCE

### CIDC Inatel — *Internship in Development*

NOVEMBER 2023 - CURRENT

During my internship at BRSC, I worked on projects in partnership with Huawei. I did several projects, such as system automation using **Flask** and **Selenium** and management systems using **JavaScript** and **Vue.JS**.

### CIDC Inatel — *Internship in Mobile Networks*

JUNE 2023 - OCTOBER 2023

During my internship at BRDC, I was responsible for technical documentation in English and for activities involving access to routers involving Telecommunications. I applied knowledge of **networks** and **protocols**.

## EDUCATION

### Instituto Nacional de Telecomunicações INATEL — *Undergraduate in Software Engineering*

JUNE 2023 - JUNE 2028

### Escola Técnica de Eletrônica FMC — *Telecommunications Technician*

JANUARY 2020 - DECEMBER 2022

## PROJECTS

### Care Reminder — *Inatel Project Fair*

Care Reminder is an integrated system that combines a mobile app and a smart dispenser to manage users' medication using computer vision. React Native, TypeScript, Tailwind, Python, Yolo V8, Wiring Language, and Firebase were used in the project.

The project was awarded first place in the “Market Viability” category.
